

ContiTread Scandinavia Extreme HD3

Developed for tough winter conditions.

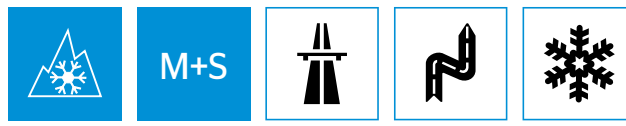

Outstanding traction on snow and ice. The ContiTread Scandinavia Extreme HD3 delivers exceptional performance in severe winter conditions.

Cold retreading performed by Continental:
We combine innovative tyre production and retreading technologies to realise the full cost-saving potential of cold retreading without compromising performance.

Cold retreading with ContiTread is carried out by selected ContiTread partners to guarantee the highest quality in production and processing.

Motorway

Regional

Winter

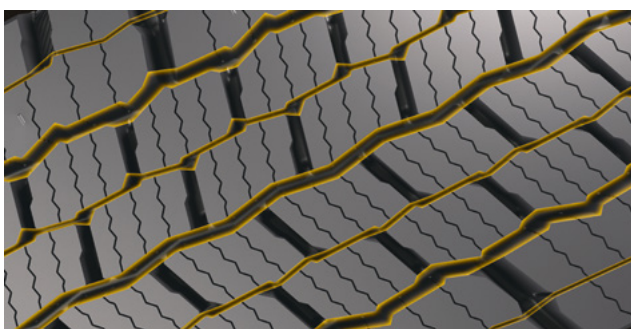

Key Benefits

- › **Outstanding traction**
the innovative winter pattern ensures excellent grip on snow and ice
- › **Impressive handling**
the open shoulder design provides extreme grip and great handling performance
- › **Life span**
high pattern stability for long service life due to sipes with varying depth

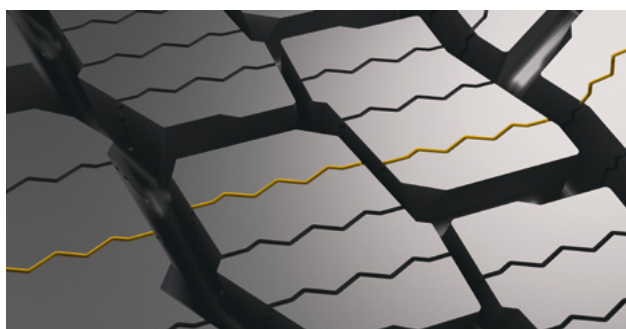

Technical Highlights

Pattern design

Seven pattern grooves for excellent cornering and directional stability

Numerous grip edges

Significantly more siping for an impressive grip in the toughest conditions on snow and ice

Product Range

Tyre Size	Tread Depth	Tyre Size	Tread Depth
275/70 R 22.5	19.5 mm	315/60 R 22.5	19.5 mm
295/60 R 22.5	19.5 mm	315/70 R 22.5	19.5 mm
295/80 R 22.5	19.5 mm	315/80 R 22.5	19.5 mm

Tyre Markings

Mud and Snow (M+S)

M+S marked tyres provide a tread pattern or structure that is designed to deliver performance exceeding that of standard tyres in snowy conditions. The M+S label is not subject to a defined test procedure.

Three Peak Mountain Snow Flake (3PMSF)

3PMSF tyres deliver legally certified winter performance. These tyres have to pass a test on snow covered roads and provide at least 25% better traction than a standard reference tyre.
