

## **ContiTread™ Scandinavia LD3**

Well prepared for winter.

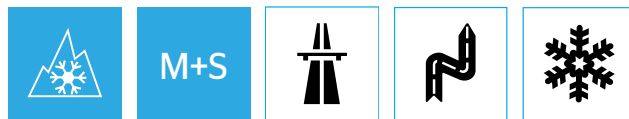

**The ContiTread Scandinavia LD3 delivers maximum safety and great performance in harsh winter conditions.**

Cold retreading performed by Continental:  
We combine innovative tyre production and retreading technologies to realise the full cost-saving potential of cold retreading without compromising performance.

Cold retreading with ContiTread is carried out by selected ContiTread partners to guarantee the highest quality in production and processing.

**ContiTread™**

# ContiTread™ Scandinavia LD3

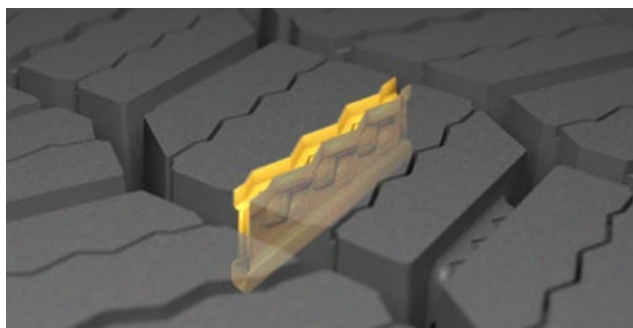

## Key Benefits

- › **Maximum safety**  
based on the 3D-siping technology for best traction results over lifetime
- › **High performance**  
very good rolling resistance and mileage due to two-layer tread construction
- › **Winter expert**  
thanks to special Generation 3 winter compound against harsh winter conditions

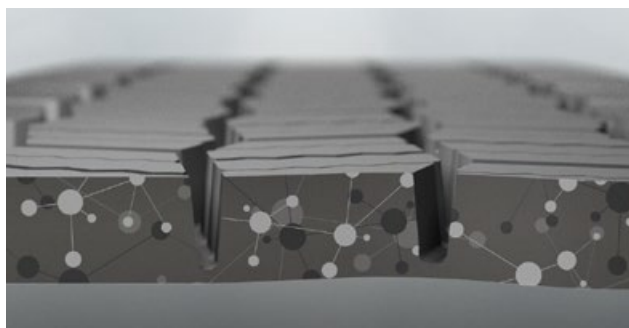

## Technical Highlights

### Better safety

A proven combination of different siping technologies guarantees maximum safety under harsh winter conditions.

### High efficiency

The new tread compound provides significant improvements in rolling resistance at constant mileage performance.

## Product Range

Tyre Size	Tread Depth
205/75 R 17.5	16.0 mm
215/75 R 17.5	16.0 mm
225/75 R 17.5	16.0 mm
235/75 R 17.5	16.0 mm

## Tyre Markings

### Mud and Snow (M+S)

M+S marked tyres provide a tread pattern or structure that is designed to deliver performance exceeding that of standard tyres in snowy conditions. The M+S label is not subject to a defined test procedure.

### Three Peak Mountain Snow Flake (3PMSF)

3PMSF tyres deliver legally certified winter performance. These tyres have to pass a test on snow covered roads and provide at least 25% better traction than a standard reference tyre.
