

ContiTread™ HDL2

Best of both worlds: less fuel, more mileage.

Optimised tread pattern and compound exhaust every possibility of lowering rolling resistance while keeping mileage up. That's the ContiTread HDL2.

Cold retreading performed by Continental:
We combine innovative tyre production and retreading technologies to realise the full cost-saving potential of cold retreading without compromising performance.

Cold retreading with ContiTread is carried out by selected ContiTread partners to guarantee the highest quality in production and processing.

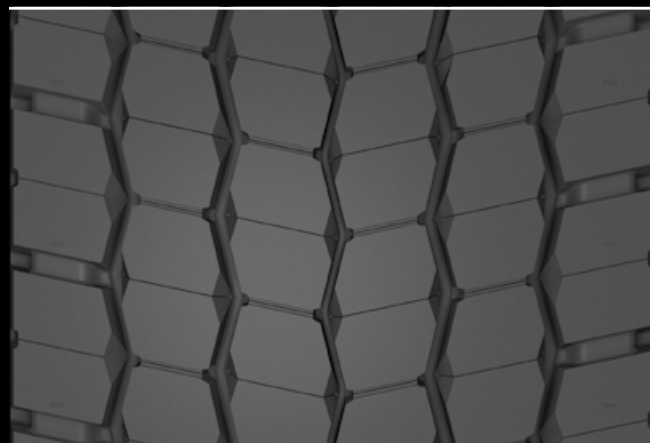

ContiTread™ HDL2

Motorway

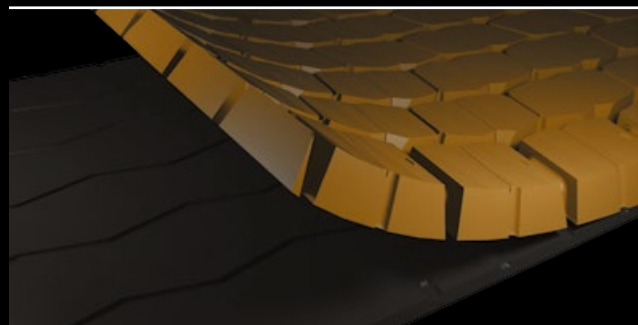

Key benefits

- › **Low fuel consumption**
thanks to an optimised rolling-resistance compound
- › **Optimised tread design**
with cross-supporting elements especially for retarder use
- › **Uniform wear**
through even pressure distribution in the ground contact patch

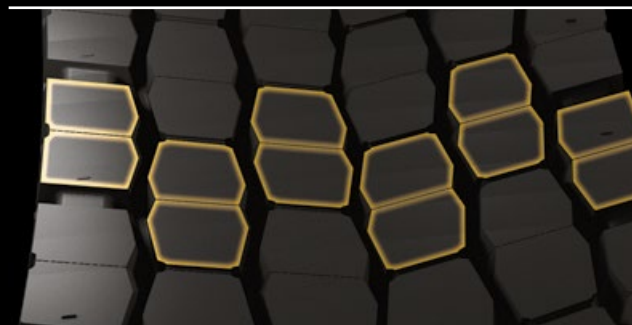

Technical Highlights

Cap/base compound

Optimal combination of fuel-efficient base and wear-resistant cap

Tread design

Tread design optimised for excellent traction even in the wet and high mileage at low rolling resistance

Tyre Size	Tread Depth
295/60 R 22.5	16.7 mm
295/80 R 22.5	16.7 mm
315/60 R 22.5	16.7 mm
315/70 R 22.5	16.7 mm
315/80 R 22.5	16.7 mm
