Tyre Markings

Mud and Snow (M+S)

M+S marked tyres provide a tread pattern or structure that is designed to deliver performance exceeding that of standard tyres in snowy conditions. The M+S label is not subject to a defined test procedure.

Three Peak Mountain Snow Flake (3PMSF)

3PMSF tyres deliver legally certified winter performance. These tyres have to pass a test on snow covered roads and provide at least 25% better traction than a standard reference tyre.
