

ContiTread Hybrid HD5

Takes your fleet further.
And your performance, too.

More powerful on regional roads and motorways. The ContiTread Hybrid HD5 delivers exceptionally high mileage and impressive traction.

Cold retreading performed by Continental:
We combine innovative tyre production and retreading technologies to realise the full cost-saving potential of cold retreading without compromising performance.

Cold retreading with ContiTread is carried out by selected ContiTread partners to guarantee the highest quality in production and processing.

ContiTread

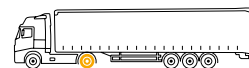

ContiTread Hybrid HD5

Motorway

Regional

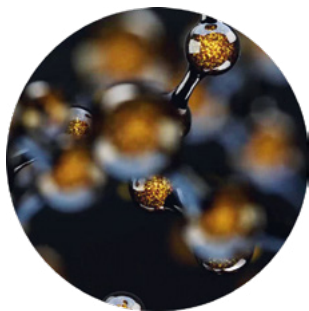

This drive axle tread allows your fleet trucks to cover very long distances. A new tread compound for the drive axle with superior binding properties and a distinctive type of carbon black enables less internal friction and thus ensures ultra-high mileage. Moreover, thanks to the combination of two different innovative compounds for cap and base, you can still benefit from balanced rolling resistance and fuel efficiency performance.

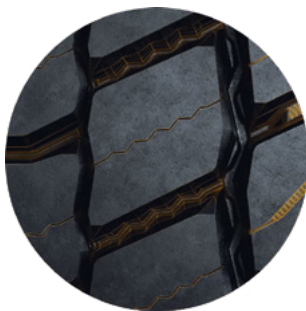

Product Range

Tyre Size	Tread Depth	Tyre Size	Tread Depth
275/70 R 22.5	20.0 mm	315/60 R 22.5	20.0 mm
295/60 R 22.5	20.0 mm	315/70 R 22.5	20.0 mm
295/80 R 22.5	20.0 mm	315/80 R 22.5	20.0 mm

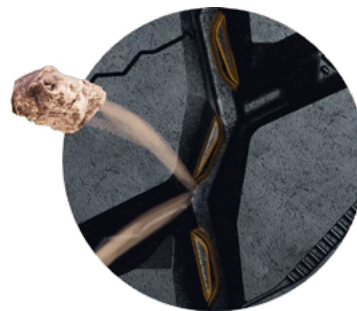

Technical Highlights

Look forward to exceptionally high mileage thanks to the new tread compound formula specifically developed for regional operations.

Benefit from impressive traction in all weather conditions due to an extra-robust tread pattern including new full-width 3D matrix sipes.

Enjoy high casing protection and great tread integrity through minimised stone-trapping enabled by void-generating grooves and stone bumpers.
