

ContiTread™ HDC 1

Extreme challenges call for extreme durability.

Robustness, high mileage, long service life - ContiTread HDC1 now takes you even further, resisting extreme demands on construction sites under economic pressure.

Cold retreading performed by Continental:
We combine innovative tyre production and retreading technologies to realise the full cost-saving potential of cold retreading without compromising performance.

Cold retreading with ContiTread is carried out by selected ContiTread partners to guarantee the highest quality in production and processing.

ContiTread™ HDC 1

M+S

On/Off

Key benefits

- › **Optimal resistance to damage**
plus high mileage, thanks to new on-/off-road compound and new contour
- › **High structural load level**
thanks to optimised tread contour and high overall stiffness
- › **Outstanding traction**
through application-optimised pattern design

Technical Highlights

Tough compound

The robust compound of the ContiTread HDC 1 protects the tyre from cuts, chipping and chunking which results in substantially longer service life.

Directional pattern design

With its great depth and increased volume, the directional tread pattern design results in reliable traction on extreme grounds and significantly less stone trapping.

Tyre Size	Tread Depth
12 R 22.5	23.0 mm
13 R 22.5	23.0 mm
295/80 R 22.5	23.0 mm
315/80 R 22.5	23.0 mm
