

ContiTread™ Scandinavia HT3

Tackle winter with confidence.

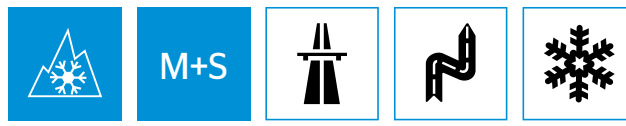

Well prepared for winter. The ContiTread Scandinavia HT3 is the ideal trailer axle solution for demanding winter conditions.

Cold retreading performed by Continental:
We combine innovative tyre production and retreading technologies to realise the full cost-saving potential of cold retreading without compromising performance.

Cold retreading with ContiTread is carried out by selected ContiTread partners to guarantee the highest quality in production and processing.

ContiTread™ Scandinavia HT3

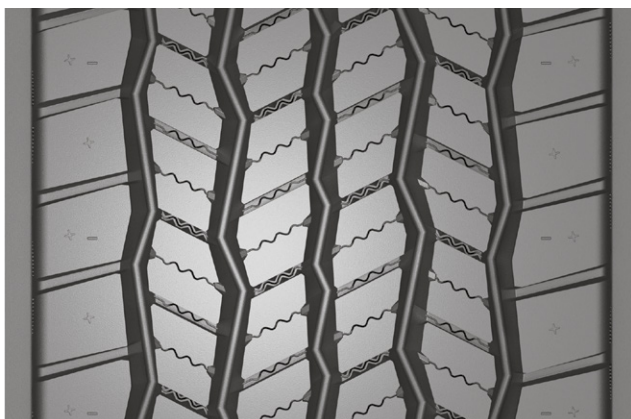

Motorway

Regional

Winter

Key Benefits

› Maximum safety

due to siping technology and pocket sipes for excellent curving and braking stability

› Wider shoulders

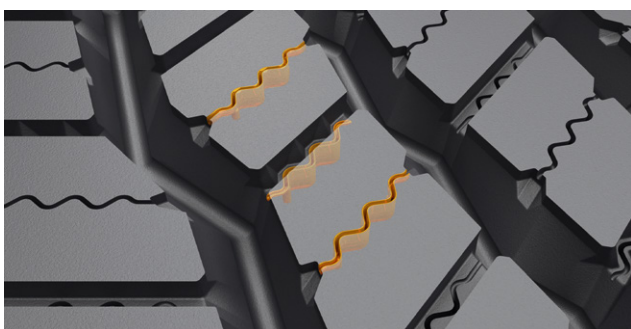

to withstand strong lateral forces

› Special winter compound

against harsh winter conditions

Technical Highlights

Void generating sipes

A proven combination of different siping technologies guarantees maximum safety under harsh winter conditions.

Pattern design

The special winter pattern ensures firm grip and traction on snow and ice

Product Range

Tyre Size	Tread Depth
385/65 R 22.5	16.2 mm
385/55 R 22.5	16.2 mm

Tyre Markings

Mud and Snow (M+S)

M+S marked tyres provide a tread pattern or structure that is designed to deliver performance exceeding that of standard tyres in snowy conditions. The M+S label is not subject to a defined test procedure.

Three Peak Mountain Snow Flake (3PMSF)

3PMSF tyres deliver legally certified winter performance. These tyres have to pass a test on snow covered roads and provide at least 25% better traction than a standard reference tyre.
