Continental
The Future in Motion

ContiTread™ HD Hybrid

The professional allrounder tread.

Looking to extend your truck tyre's life? ContiTread HD Hybrid is the perfect fit for long-distance and regional transport.

Cold retreading performed by Continental – we combine innovative tyre production and retreading technologies so that the full cost-saving potential of cold retreading can be realised without compromising performance.

To ensure highest product and process quality, cold retreading with ContiTread is carried out by selected ContiTread partners.

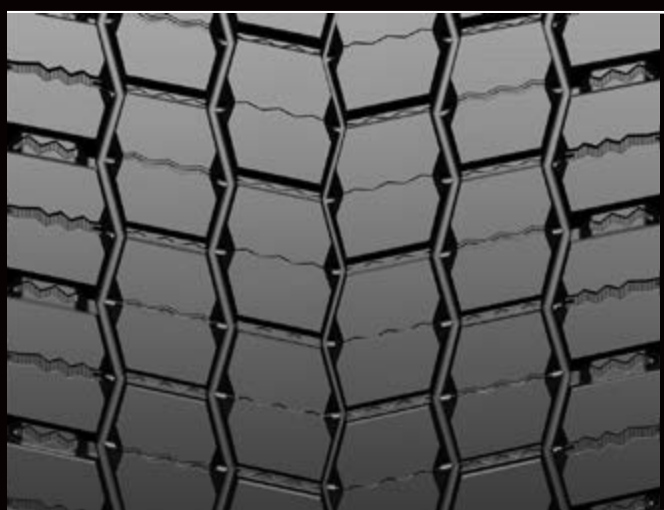

ContiTread™

ContiTread™ HD Hybrid

Key benefits

- **Great versatility**
  performs on wet and dry surfaces, even snow-covered motorways or regional roads
- **Outstanding tread endurance**
  with regular wear and optimised pressure distribution
- **Reduced fuel consumption**
  thanks to optimal harmonisation with power transmission
- **Excellent traction**
  due to self-stabilising rib-block pattern and larger footprint area

Tyre Size	Tread Depth
295/60 R 22.5*	17.5 mm
315/70 R 22.5	21.0 mm
315/80 R 22.5	21.0 mm

Excellent wear performance

ContiTread HD Hybrid is characterised by its specially designed groove-sipe system. This ensures a constant share of grooves and 3D-sipes throughout the entire service life. The tread adapts as needed to maintain its adavantages for regional and long-haul applications.
